ABOUT ME

I'm a self-taught software developer with a strong will to learn, research new technologies, and design software architecture. I believe in curiosity and consistency in work and I am always looking for new challenges. I'm working on growing my skills and gaining exposure to a variety of technology, whether that be through work or personal projects. When I'm not glued to my computer, I enjoy watching movies, reading books and learning new languages.

EDUCATION

Azad University Rasht / 2020 - 2024

Bachelor of Science: Computer Engineering

GPA: 18.75
